

# Power Services

**PERFORMANCE** has built our business...®

## An Industry Leader

**H**enkels & McCoy, Inc. (H&M) provides construction and maintenance services to the electric transmission and distribution infrastructure throughout North America. Our experience in this industry spans more than 75 years, with the Great New England Hurricane of 1938 marking the transition of the company from a tree-trimming and landscaping firm to a key player in utility infrastructure and power restoration.

## Capabilities

- Aerial transmission to 765 kV
- Underground transmission to 230 kV
- Aerial and underground distribution to 69 kV
- Extra-high voltage (EHV) experience
- Substations - AIS and GIS
- Project and program management
- Survey and constructability analysis
- Emergency restoration
- Renewable energy

## Emergency Response

Our long history is replete with examples of prompt, effective response to local emergencies and major disasters in the most challenging settings. Whether the customer is large or small, from Hawaii to the Gulf Coast, our national footprint enables us to mobilize quickly and efficiently.

## Commitment to Safety

Safety is of the utmost concern for our employees, our customers, and the general public. H&M has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission and Distribution (ET&D) Partnership, a formal collaboration of industry stakeholders working to reduce fatalities, injuries, and illnesses in the electric line construction industry.

On projects of all scales and levels of complexity, H&M is committed to providing safe and reliable power to our customers and their customers.

## Transmission

- Aerial Construction
- Underground Construction
- Maintenance
- Emergency Restoration
- EPC

## Substation

- Electrical Construction
- Civil Construction
- Maintenance
- Emergency Restoration
- EPC

## Distribution

- Aerial Construction

- Maintenance
- Emergency Construction
- EPC

# Communications Services

**PERFORMANCE** has built our business...®

**H**enkels & McCoy, Inc. (H&M) is a leading utility construction firm providing critical infrastructure for the communications market throughout North America. Founded in 1923, H&M adapts 90+ years of experience to the dynamic and evolving infrastructure needs of today. In the communications sector, H&M works with carriers, operating telcos, utilities, enterprises, and all levels of government to deliver a full range of services for the planning, design, construction, and installation of wireline and wireless communications networks. With numerous locations and resources that are strategically deployed nationwide, H&M consistently ranks in the top 10 of *Engineering News-Record's* Specialty Contractors.

## Areas of Expertise

H&M's areas of expertise include project management, feasibility studies, as well as planning and scheduling. H&M is an expert in engineering and construction services, system integration, start-up and testing, and service and maintenance. Full turnkey projects are a specialty of H&M as well as subcontract review and supervision.
