

Renewables

With renewable energy becoming an increasing part of the country's energy source, Henkels & McCoy (H&M) has the experience to help connect renewable energy companies to the grid. H&M works with a wide variety of clients to create both supplemental power and/or energy independence. From wind farms to solar energy facilities, H&M has built, monitored, and maintained renewable energy projects.

The renewables team at H&M has the experience and resources to maximize efficiencies during construction and throughout the facility's operation. The company's expertise extends from busy city centers to the remote countryside in challenging conditions.

With a deep understanding of the complexities inherent to any renewable energy project, H&M brings the highest quality safety practices and project management expertise to the job. The firm's innovative solutions, comprehensive approach to preconstruction planning, and commitment to safety ensure that project risks are accurately identified and managed. Whether H&M is building, expanding, or maintaining clients' facilities, the firm provides the most effective and socially responsible solutions to meet the nation's changing energy needs.

Services

- Collector Systems Construction

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices ensures H&M maintains the absolute highest safety standards to protect our workers, our clients, and the community. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communication markets throughout North America. Founded in 1923, Henkels & McCoy adapts over 95 years of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
