

Battery Storage

With a large national footprint and nearly a century of energy and utility infrastructure experience, Henkels & McCoy (H&M) delivers an impressive spectrum of reliable, state-of-the-art battery storage solutions for a variety of applications across North America.

Battery storage has taken an expanded role in the energy market, enabling real-time grid balancing and stabilization, enhancing supply security, supporting renewables integration, and providing power-quality services. From managing small project solutions to providing utility-scale installations, H&M is skilled in the innovative techniques necessary to meet the unique demands and opportunities battery storage provides.

The firm has expertise in all phases of station construction, as well as seamless battery storage interconnection with distribution and station facilities. H&M has the resources to deliver advanced solutions for on-grid, off-grid, and micro-grid applications, providing clients with scalable and resilient solutions that deliver sustained value.

Work Scope

- Engineering
- Full Procurement Services
- Construction
- Installation
- Linking to Substations
- Grid Connection and Optimization
- Testing and Commissioning
- Quality Control and Quality Assurance

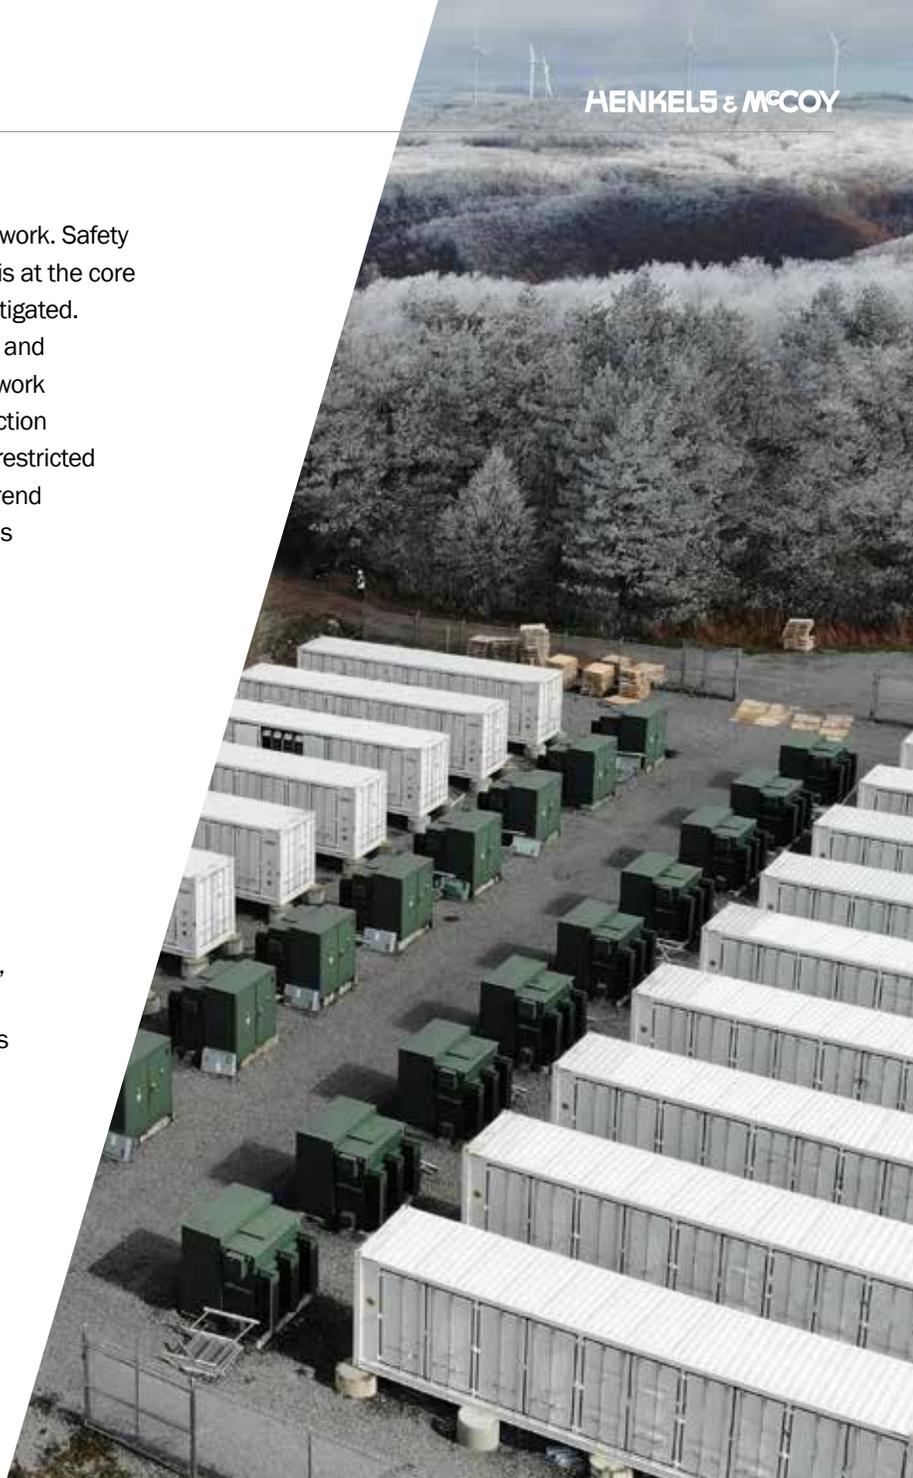

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices make certain H&M maintains the absolute highest safety standards to protect our workers, our clients, and the community. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction, and maintenance services for the power, oil & gas pipeline, gas distribution, and communications markets throughout North America. Founded in 1923, Henkels & McCoy adapts over 95 years of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
